### Annika Kienbaum reports on her experiences in Sweden

*Gummersbach, 10.12.2019.*

IHK Köln honoured Steinmüller Engineering GmbH with an award for offering sponsored visits abroad. By these visits new working techniques, cultures and languages can be discovered within apprenticeships. Early exchange of experiences is an important module to establish and maintain international relations – jobwise and personally. At the [Ausbilder des Jahres Verleihung](#) Annika Kienbaum reported on her visit in Sweden.
